

# Concluding the assessment of the food control system in Zimbabwe Strategic workshop

part of the “Strengthening food control and phytosanitary capacities and governance” project

WHAT HAVE WE DONE TO DATE

## The Republic of Zimbabwe country profile

- 32 Focal Points were trained
- ▼
- The Focal Points actively collected data and provided evidence
- ▼
- Data was reviewed
- ▼
- Implementation of international validation mission

Throughout the process: confidentiality of results & impartiality and independence of assessments

The country led the process based on its goals and challenges. FAO facilitated the process, involved multisectoral stakeholders. Ensured ownership

WHY ARE WE HERE TODAY

- To endorse the findings, recommendations and shared vision on food control
- To identify country priorities
- To produce a strategic analysis meant to strengthen the food control system in Zimbabwe
- To develop a strategic Action Plan for the food control system in Zimbabwe
- To elaborate a strategic framework and interventions

countries conducting assessments as part of the project
