

SUSTAINING ESSENTIAL SERVICES DELIVERY PROJECT (SUPPORT FOR AFGHAN PEOPLE)

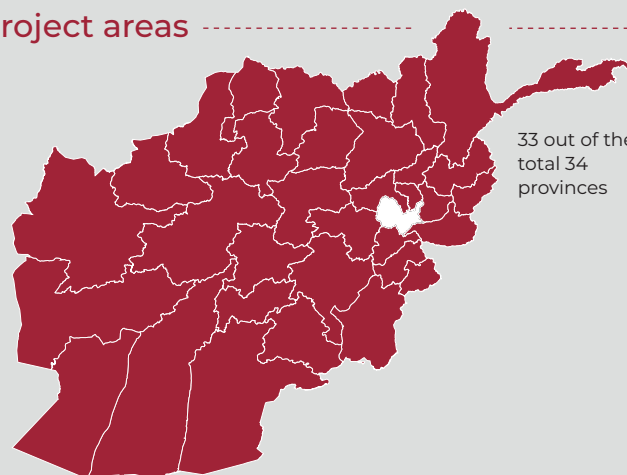

Objective

To mitigate the adverse impacts of the crisis on the people of Afghanistan, including the vulnerable, sustain the development achievements of the past two decades by preserving the human capital of the country.

FAO contributes to two sub-components under component 2 of the output (i) food security enhanced. Under subcomponent 2.1, FAO will provide wheat cultivation and livestock protection packages support to 250 000 vulnerable households. In addition, under subcomponent 2.2, FAO will provide rural livelihood inputs and extension support to 140 000 poor food insecure households. All farmers and livestock owners will be assisted with technical training and veterinary services through local private service providers.

All these interventions will generate food and income benefits for over 2.73 million highly food insecure Afghans across 33 out of Afghanistan's 34 provinces.

Project areas

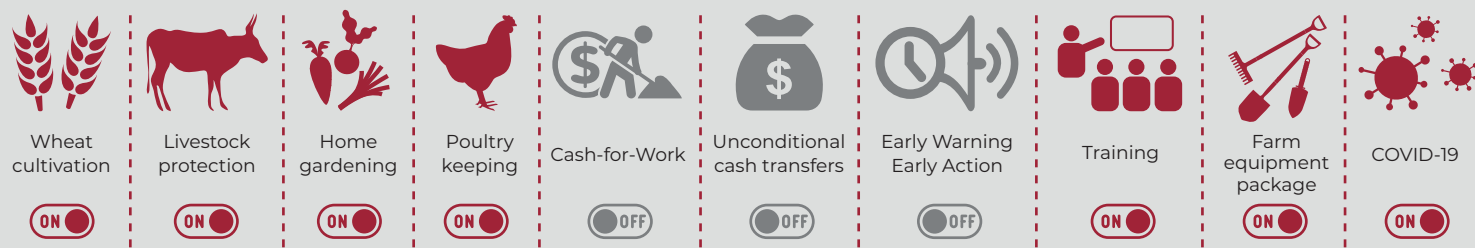

The boundaries and names shown and the designations used on these map(s) do not imply the expression of any opinion whatsoever on the part of FAO concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers and boundaries. Dashed lines on maps represent approximate border lines for which there may not yet be full agreement.
