**Examples of Nutrition Direct Interventions**

- **Supplementation**
  - Stage 1: Disrupted
  - Stage 2: Somewhat disrupted; level of implementation subject to government funding
  - Stage 3: Somewhat disrupted; level of implementation subject to government funding
  - Stage 4: Full implementation possible subject to government funding
  - Stage 5: Full Implementation

- **Fortification**
  - Stage 1: Somewhat disrupted
  - Stage 2: Somewhat disrupted; level of implementation subject to private sector compliance
  - Stage 3: Level of implementation subject to private sector compliance
  - Stage 4: Full implementation possible subject to government funding
  - Stage 5: Full Implementation

- **Behaviour Change**
  - Stage 1: Disrupted
  - Stage 2: Somewhat disrupted; level of implementation subject to government funding
  - Stage 3: Somewhat disrupted; level of implementation subject to government funding
  - Stage 4: Full implementation possible subject to government funding
  - Stage 5: Full Implementation

**Examples of Nutrition Sensitive Interventions**

- **Home Gardens**
  - Stage 1: Somewhat disrupted
  - Stage 2: Somewhat disrupted; level of implementation subject to government funding
  - Stage 3: Somewhat disrupted; level of implementation subject to government funding
  - Stage 4: Full implementation possible subject to government funding
  - Stage 5: Full Implementation

- **Biofortification**
  - Governments will focus on ensuring staple food supplies to keep prices low, minimize overt hunger, and maintain political stability; if sufficient breeder and foundation seed is already available, possibility to accelerate reach of biofortified crops under the government programs to sustain domestic food staple supplies
  - Stage 4: Full implementation possible subject to government funding
  - Stage 5: Full implementation

- **Improving Supply/Value Chains for Specific Nutritious Non-staple Foods**
  - Somewhat disrupted if already being implemented; level of implementation subject to government funding; if not started pre-COVID, difficult to initiate a program during COVID
  - Stage 4: Full implementation possible subject to government funding
  - Stage 5: Full Implementation
